

MANISTEE RIVER TRAIL & NORTH COUNTRY TRAIL LOOP

This weekend-size, 22-mile loop takes you on some of the best terrain in the Lower Peninsula. For beginners, we recommend beginning at the Red Bridge Trailhead and hiking along the North Country Trail side first and camping near Eddington Creek. From there make your way across the suspension bridge and onto the Manistee River trail, where sweeping views of the Udell Rollways and River will be abundant and beautiful.
